ELIZABETH FRANKLIN, A NEW YORKER WHO HAS ESTABLISHED HERSELF AS THE ZAGAT OF INTERIORS, HAS PUBLISHED THE FRANKLIN REPORT, AN INSIDER'S GUIDE TO HOME SERVICES.

And indeed it is. It's a great local resource for ratings and information on a large array of service providers right here in the Los Angeles area—from electrician's to interior designers. We have found the recommendations really helpful and would like to share a portion of them with you in alphabetical order.

The Franklin Report, The Insider's Guide to Home Services, is a survey of home renovation and maintenance services providers. The first few volumes of The Franklin Report focus on New York City, Chicago, Los Angeles and Westchester & Fairfield counties areas respectively. Other major metropolitan areas will soon follow...

Their "insider's Guide" is available in bookstores, through their Web site at www.franklinreport.com/LA/buythebook.html and through a toll-free phone call to 1-866-990-9100. Evaluations and reports are based on factual information from the providers and from in depth customer surveys submitted through the Web site, emails, phone calls, faxes and in person.
